## To Whom It May Concern

This letter I'm writing to express our support and satisfaction in relations with HIGH-END YACHT REFIT & REPAIR SHIPYARD **NAUTECH** in La Ciotat, 46 Quai Francois Mitterrand 13600 La Ciotat.

Personally I was working with Managing director Nikolas Bruni, project managers Kyle Barron and Michael Germain, crew assistant Sara Ines Zaim. We always had a great communication and we were managing together anticipated situations with a calm demeanour. They always had positive attitude and confidence to obtain their goals.

As a conscientious and effective shipyard for refit and repair they are providing us the highest levels of service to our Owners, bringing valuable experience gained from extensive experience of yacht maintenance where they have formed excellent relationships with many contractors that we have gone together, ensuring work is completed to the highest standards, **on time and on budget.**

Captain Ivan Franic
